N.A. - Data not available.

1. Estimates are based on data collected by the Federal Reserve from a stratified random sample of about 550 banks and 75 mutual savings banks. Until the end of September 1983 data were collected concerning specific indexed-ceiling and ceiling-free deposit accounts. Effective October 1, 1983, the DIDC deregulated time deposits, and this survey now provides information on all small interest-bearing time deposits by maturity category. The data presented for the end of October are not directly comparable to specific account data published previously, but include those balances.

2. "Super NOW" accounts are NOW accounts containing an agreement between depositor and depository such that, provided certain conditions—including a \$2,500 minimum balance—are met, some or all funds deposited are eligible to earn more than 5.25 percent.

3. Money market deposit accounts (MMDAs)—Deposits with a \$2,500 initial and average balance requirement, no required minimum maturity but institutions must reserve the right to require at least seven day's notice prior to withdrawal, no restrictions on depositor eligibility, or limitations on the amount of interest that may be paid unless the average balance falls below \$2,500 during which period the NOW account rate ceiling applies; such accounts may allow up to six transfers per month, no more than three of which may be draft and may permit unlimited withdrawals by mail, messenger, or in person. Estimates for this category of deposits are based on data collected by the Federal Reserve from weekly deposit reports submitted by about 10,500 commercial banks.

4. All interest-bearing time certificates and open account time deposits with balances of less than \$100,000, including those held in IRAs and Keogh Plan deposits.

5. All IRA/Keogh Plan time deposits regardless of size, type of instrument in which held, or interest rate paid.

6. Retail repurchase agreements are in denominations of less than \$100,000 with maturities of less than 90 days that arise from the transfer of direct obligations of, or obligations fully-guaranteed as to principal and interest by, the U.S. Government or an agency thereof.

7. Over the last several months the number of mutual savings banks has declined sharply largely due to the conversion of MSBs to federal savings banks. As a result month-to-month changes in the amounts outstanding in various accounts are distorted downward.
