MONEY STOCK REVISIONS

Measures of the money stock and components have been revised to incorporate the results of the annual seasonal factor review and a quarterly benchmark. This release includes revised monthly and weekly seasonal factors, as well as comparisons of the revised monetary aggregates with previously published data. On balance, the revisions raised M2 and M3 growth rates in the first half of 2005 and lowered them in the second half.

The benchmark incorporates minor revisions to data reported on the weekly and quarterly deposit reports, and it takes account of deposit data from Call Reports for banks and thrift institutions that are not weekly or quarterly deposit reporters. These revisions to deposit data start in 2002. The benchmark also incorporates revisions to the retail and institutional money market mutual fund components, including revisions to IRA and Keogh balances held at these funds. Money market mutual fund revisions begin in 1992. This release also incorporates the receipt of historical information from other data sources.

Seasonally adjusted measures of the monetary aggregates and components incorporate revised seasonal factors, which were derived from data through December 2005. Monthly seasonal factors were estimated using the X-12-ARIMA procedure. The effects of both the benchmark and seasonal factor revisions on M1, M2 and M3 growth rates are outlined in Appendix Tables 6-8.

Historical data, updated each week, are available through the Federal Reserve's web site (<http://www.federalreserve.gov/releases/>) with the H.6 statistical release. The data are also available through paid electronic means, which can be accessed by calling STAT-USA at 1-800-782-8872 or 202-482-1986.

Footnotes to Table 1:

1. M1 consists of (1) currency outside the U.S. Treasury, Federal Reserve Banks, and the vaults of depository institutions; (2) travelers checks of nonbank issuers; (3) demand deposits at commercial banks (excluding those amounts held by depository institutions, the U.S. government, and foreign banks and official institutions) less cash items in the process of collection and Federal Reserve float; and (4) other checkable deposits (OCDs), consisting of negotiable order of withdrawal (NOW) and automatic transfer service (ATS) accounts at depository institutions, credit union share draft accounts, and demand deposits at thrift institutions. Seasonally adjusted M1 is constructed by summing currency, travelers checks, demand deposits, and OCDs, each seasonally adjusted separately.
2. M2 consists of M1 plus (1) savings deposits (including money market deposit accounts); (2) small-denomination time deposits (time deposits in amounts of less than \$100,000), less individual retirement account (IRA) and Keogh balances at depository institutions; and (3) balances in retail money market mutual funds, less IRA and Keogh balances at money market mutual funds. Seasonally adjusted M2 is constructed by summing savings deposits, small-denomination time deposits, and retail money funds, each seasonally adjusted separately, and adding this result to seasonally adjusted M1.
3. M3 consists of M2 plus (1) balances in institutional money market mutual funds; (2) large-denomination time deposits (time deposits in amounts of \$100,000 or more); (3) repurchase agreement (RP) liabilities of depository institutions, in denominations of \$100,000 or more, on U.S. government and federal agency securities; and (4) Eurodollars held by U.S. addressees at foreign branches of U.S. banks worldwide and at all banking offices in the United Kingdom and Canada. Large-denomination time deposits, RPs, and Eurodollars exclude those amounts held by depository institutions, the U.S. government, foreign banks and official institutions, and money market mutual funds. Seasonally adjusted M3 is constructed by summing institutional money funds, large-denomination time deposits, RPs, and Eurodollars, each seasonally adjusted separately, and adding this result to seasonally adjusted M2.

Note: Current and historical H.6 data are available each week on the Federal Reserve Board's web site (<http://www.federalreserve.gov/>). Monthly data are available back to January 1959, and weekly data are available back to January 1975 for most series.
