

## BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

For immediate release

May 8, 1961

DEMAND DEPOSITS, CURRENCY, AND RELATED ITEMS  
(Averages of daily figures)

Seasonally adjusted money supply (defined as demand deposits adjusted and currency outside banks), is estimated at \$142.0 billion for April, an increase of 500 million from the preceding month. Member bank time deposits rose \$800 million further in April, slightly less than in other recent months.

**NOTES:** The demand deposit component consists of demand deposits other than domestic commercial interbank and U. S. Government, less cash items reported as in process of collection and Federal Reserve float. Since Federal Reserve float cannot be allocated accurately between member and nonmember banks, it is deducted in whole from the member bank demand deposit component (column 1). The currency component consists of currency outside the Treasury, the Federal Reserve, and the vaults of all commercial banks.
