Footnotes

1. Covers the following types of institutions in the fifty states and the District of Columbia: domestically chartered commercial banks that submit a weekly report of condition (large domestic); other domestically chartered commercial banks (small domestic); branches and agencies of foreign banks, New York State investment companies, and Edge Act and agreement corporations (foreign-related institutions). Excludes international banking facilities. Data are Wednesday values or *pro rata* averages of Wednesday values. Large domestic banks constitute a universe; data for small domestic banks and foreign-related institutions are estimates based on weekly samples and on quarter-end condition reports. Data are adjusted for breaks caused by reclassifications of assets and liabilities.

The data for small and large domestic banks presented on pages 5 and 6 are adjusted to remove the estimated effects of mergers between these two groups. The data for small and large domestic banks presented on pages 7-8 and pages 9-10 are based on reported data and are affected by mergers. The adjustment for mergers changes past levels to make them comparable with current levels. Estimated quantities of balance sheet items acquired in mergers are removed from past data for the bank group that contained the acquired bank and put into past data for the group containing the acquiring bank. Balance sheet data for acquired banks are obtained from call reports, and a ratio procedure is used to adjust past levels.

2. Excludes federal funds sold to, reverse RPs with, and loans to commercial banks in the United States.
3. Consists of reverse RPs with broker-dealers and loans to purchase and carry securities. For small domestic banks, consists of an estimate of other loans derived from weekly data for a sample of small banks multiplied by the share of security loans in other loans, calculated from quarterly Call Reports.
4. Consists of federal funds sold to, reverse RPs with, and loans to commercial banks in the United States.
5. Includes vault cash, cash items in process of collection, demand balances due from depository institutions in the United States, balances due from Federal Reserve Banks, and other cash assets.
6. Excludes the due-from position with related foreign offices, which is included in line 23.
7. Excludes unearned income, reserves for losses on loans and leases, and reserves for transfer risk. Loans are reported gross of these items.
8. Estimated with partial data; for all banks, not seasonally adjusted, constrained to equal values in line 11. The seasonally adjusted aggregates for all commercial banks in lines 11 and 21 are sums of seasonally adjusted components and are not necessarily equal.
9. Excludes the due-to position with related foreign offices, which is included in line 23.
10. This balancing item is not intended as a measure of equity capital for use in capital adequacy analysis. On a seasonally adjusted basis this item reflects any differences in the seasonal patterns estimated for total assets and total liabilities.
