BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM
(For Immediate Release)

MONTHLY ESTIMATES OF ASSETS AND LIABILITIES OF
ALL BANKS IN THE UNITED STATES

The attached statement is the first of a series that will be released monthly showing estimated assets and liabilities of all banks, all commercial banks, and all member banks by class of bank. The new monthly series supplements and is the same as the semi-annual all-bank series regularly published in the Federal Reserve Bulletin. The new series is also consistent with the revised semi-annual all-bank series announced jointly by the Federal bank supervisory agencies on November 10 except that the latter includes banks in United States possessions.

The member bank data in the new statement are tabulated and partly estimated from various reports submitted to the Federal Reserve Banks, namely, from weekly condition reports of member banks in leading cities, and, for other member banks, from monthly reports of loans and investments and reports of deposits submitted for reserve purposes. The figures for mutual savings banks are obtained from the monthly series published by the National Association of Mutual Savings Banks. The non-member commercial bank figures are estimated changes from call date data.

Some of the items of this series have been published for earlier months in 1947 in the Federal Reserve Bulletin in the table of current statistics for Federal Reserve chart books. Hereafter, the latest monthly estimates will also be shown in the Bulletin table, "All Banks in the United States, By Classes".
