Percent changes are at a simple annual rate and have been adjusted to remove the effects of nonbank structure activity of \$5 billion or more, as well as the estimated effects of the initial consolidation of certain variable interest entities (FIN 46) and off-balance-sheet vehicles (FAS 166/167). Figures reported in the H.8 Notes on the Data are generally used to make these adjustments. For information on how the data were constructed, see www.federalreserve.gov/releases/h8/about.htm. Line numbers on this page correspond to those used in the remainder of the release. Percent changes for other series shown on the release are available for customizable download through the Federal Reserve Board's Data Download Program (DDP). Footnotes appear on the last page of the release.

Footnotes

1. Data include the following types of institutions in the fifty states and the District of Columbia: domestically chartered commercial banks; U.S. branches and agencies of foreign banks; and Edge Act and agreement corporations. The latter two categories together are referred to on this release as “foreign-related institutions.” Data exclude International Banking Facilities. Weekly levels are Wednesday values; monthly levels are pro rata averages of Wednesday values. The data for domestically chartered commercial banks and U.S. branches and agencies of foreign banks are estimated by benchmarking weekly data provided by a sample of banks to quarter-end reports of condition (Call Reports). Large domestically chartered commercial banks are defined as the top 25 domestically chartered commercial banks, ranked by domestic assets as of the previous commercial bank Call Report to which the H.8 release data have been benchmarked. Small domestically chartered commercial banks are defined as all domestically chartered commercial banks not included in the top 25. The data for large and small domestically chartered banks are adjusted to remove the estimated effects of mergers and panel shifts between these two bank groups. (See www.federalreserve.gov/releases/h8/about.htm for more information on how these data were constructed.)
2. Includes all securities, whether held-to-maturity reported at amortized cost; available-for-sale reported at fair value; held as trading assets, also reported at fair value; or equity securities with readily determinable fair values not held for trading. Excludes all non-security trading assets, such as derivatives with a positive fair value (included in line 32) or loans held in trading accounts (included in line 9).
