- 1/ Monthly indexes for this category are not released publicly; they are shown here solely to permit comparisons with departmental changes.
 - 2/ Figures are based on the abbreviated sample described in note below and are presented here solely to permit comparisons with departmental changes. For weekly movements of total department store sales, refer to the regular weekly sales report H.8 (based on about 550 stores).
 - 3/ Special sales occurred in week ending Sept. 13, 1952, whereas this year they occurred in week ending Sept. 19.
- Note:--Total national sample is comprised of some 115 stores (varies slightly among departments) of the approximately 350 stores regularly reporting monthly departmental figures.
- *--Labor day in 1952 fell in the week ending Sept. 6, whereas this year it fell one week later. Therefore, the week ending Sept. 5, 1953 had one more trading day than the corresponding week last year, while the week ending September 12, 1953 had one less trading day than the week ending September 13 last year.
