p--Preliminary.

r--Revised.

e--Estimated from weekly sales figures.

1/ Monthly indexes for this category are not released publicly; they are shown here solely to permit comparisons with departmental changes.

2/ Figures are based on the abbreviated sample described in note below and are presented here solely to permit comparisons with departmental changes. For weekly movements of total department store sales, refer to the regular weekly sales report H.8a (based on about 550 stores).

Note:--Total national sample is comprised of some 115 stores (varies slightly among departments) of the approximately 350 stores regularly reporting monthly departmental figures.

*--The large increases shown for this week reflect in part the fact that this year Christmas fell on Saturday and the week therefore included five days of heavy pre-Christmas shopping as compared with four days last year when Christmas fell on Friday.
