p--Preliminary.

r--Revised.

1/ Monthly indexes for this category are not released publicly; they are shown here solely to permit comparisons with departmental changes.  
2/ Figures are based on the abbreviated sample described in note below and are presented here solely to permit comparisons with departmental changes. For weekly movements of total department store sales, refer to the regular weekly sales report H.8a (based on about 550 stores).  
 Note:--Total national sample is comprised of some 115 stores (varies slightly among departments) of the approximately 350 stores regularly reporting monthly departmental figures.

During March and April changes from a year ago reflect in part the fact that last year Easter was on April 18 while this year it will be on April 10. For this reason it is estimated that in comparison with last year an allowance should be made for an increase in sales of about 4 per cent for the month of March as a whole and a corresponding decrease for the month of April as a whole. These allowances apply to the figures for the United States.

## Sales in Selected Departments

(Percentage change from corresponding period a year ago)
