r--Revised.

\*\*\*Not available.

\*--New Year's Day this year occurred in the week ending January 7 whereas last year it was in the week ending January 2, 1960. The week of January 7, 1961, therefore, had one less trading day than the corresponding week last year.

\*\*--The large percentage changes shown for this week are due mainly to the difference in timing of Christmas 1959 and 1960. Christmas in 1959 fell on Friday whereas in 1960 it was on Sunday. Therefore, the week ending Dec. 24, 1960 had the advantage since it included 6 pre-Christmas shopping days, while the 1959 week ending Dec. 26 contained 4 pre-Christmas shopping days, 1 holiday and 1 post-Christmas shopping day.
