r--Revised.

*Not available.

^{1/} During March and April changes from a year ago reflect in part the fact that last year Easter was on April 17 while this year it was on April 2. For this reason it is estimated that in comparison with last year an allowance should be made for an increase in sales of about 8 per cent for the month of March as a whole and a corresponding decrease for the month of April. These allowances apply to the figures for the United States.
