r--Revised.

*Not available.

1/ During April changes from a year ago reflect in part the fact that last year Easter was on April 17 while this year it was on April 2. For this reason it is estimated that in comparison with last year an allowance should be made for a decrease in sales of about 8 per cent for the month of April as a whole. This allowance applies to the figures for the United States.

NOTE:--The increase shown for the week ending May 13 is partly due to a difference in timing of Mother's Day. Mother's Day this year was on May 14 while last year it was on May 8.
