- 1/ Includes required reserves against Euro-dollar borrowings and bank-related commercial paper. Reserves Available to Support Private Nonbank Deposits are required reserves for private demand deposits, total time and savings deposits, nondeposit source-subject to reserve requirements and excess reserves. Reserve aggregates reflect the change in Regulation D effective November 9, 1972, which reduced required reserves by about \$3.2 billion; and effective July 19, 1973, which increased required reserves by about \$760 million. Effective July 12, 1973, marginal reserve requirements on ineligible acceptances increased required reserves by about \$90 million. Per cent annual rates of growth for required reserves and other reserve aggregates have been adjusted to remove the effect of these structural changes.
 - 2/ Adjusted to include certain reserve deficiencies on which penalties can be waived for a transition period in connection with bank adaptation to Regulation J as amended effective November 9, 1972. The adjustment amounted to \$450 million from November 9 to December 27, 1972; \$279 million from December 28, 1972 to March 28, 1973; \$172 million from March 29, 1973 to June 27, 1973; and \$112 million thereafter.
 - 3/ Includes member bank deposits, bank-related commercial paper, Eurodollar borrowings of U.S. banks, and certain nondeposit items.
 - 4/ On September 19, bank-related commercial paper amounted to \$5266 million.
 - 5/ Average of range of offering rates of negotiable certificates of deposit with 3-month maturity in second market.
 - 6/ Daily average yield on 20-year bonds. Source: U.S. Treasury.
- NOTE: All percentage changes are at seasonally adjusted annual rates, not compounded.
