Posted ranges = the annual interest rates most often quoted on new offerings of negotiable certificates of deposit in denominations of \$100,000 or more. Yield at 20-year constant maturity. Source: U.S. Treasury

NOTE: All percentage changes are at seasonally adjusted annual rates, not compounded.

^{1/} Includes required reserves against Eurodollar borrowings and bank-related commercial paper. Reserve aggregates reflect changes in Regulation D. Per cent annual rates of growth for required reserves and other reserve aggregates have been adjusted to remove the effect of these structural changes. On September 21, 1977 bank-related commercial paper amounted to 8,363 million.
