1／Figures are predominantly for late model used cars but include data from a lew banks for all used cars．

NOTE：Distributions are based on tabulations of data from 126 banks for April and May and are not intended to be estimates for all commercial banks． In May reports covered about 44，000 contracts on new cars，29，000 purchased and 15，000 direct，and 25，000 contracts on used cars，17，000 purchased and 8,000 direct．Since composition of the group of banks changes from month to month，dati are not comparable with previous releases．

For distribution according to maturities and contract balance as a percentage of dealer cost see following pages．

$l_{i}$ Contract bslance does not include finance and insurance charges.
Less than one-tenth of one per cent.
NOTS: Distributions are based on tabulations of data from 66 banks for April and May and are not intended to be estimates for all commercial banks. In May reports covered about 21,000 contracts on new cars, 15,000 purchased and 6,000 direct. Since composition of the group of banks changes from month to month, data are not comparable with precious releases.

Details may not add to totcils because of rounding.
