Loans and Investments at All Commercial Banks
(Seasonally Adjusted)

1/ Adjusted to exclude domestic commercial interbank loans. p - Preliminary.
2/ Beginning July 1969, bank credit data are revised to include all bank premises subsidiaries and other significant majority-owned domestic subsidiaries; earlier data for commercial banks only. Also total loans and investments are now reported gross of valuation reserves rather than net as previously reported. Individual loan items have always been reported gross.
3/ Includes $\$ 800$ million System matched sale-purchase transactions outstanding on Feb. 24.
4/ Beginning June 30, 1971, Farmers Home Administration insured notes totaling approximately $\$ 700$

1/ Data are comparable with previous months. Individual loan items are gross throughout and the effect of consolidation in June 1969 on any one loan item was nominal.
2/ Real estate loans decreased by $\$ 500$ million on December 31, 1969, and loans to nonbank financial institutions increased by $\$ 500$ million due to change in method of reporting mortgage loans held under repurchase agreements.
3/ Consumer credit data adjusted in July to exclude about $\$ 500$ million of consumer paper sold by finance companies to the banking system but classified as loans to nonbank financial institutions on bank records. Subsequent repayments completed in February 1972 are also included in loans to nonbank financial institutions.

4/ Beginning June 30, 1971, Farmers Home Administration insured notes totaling approximately \$700 million are included in other securities; previously, they had been included in real estate loans.
5/ Beginning June 1972, business loans were reduced by $\$ 400$ million, nonbank financial increased by $\$ 300$ million, and "other" loans increased by $\$ 100$ million as the result of loan reclassification at one large bank.

NOTE: Data exclude domestic interbank loans. Consumer and "other loans" were partly estimated for all dates. other data are partly estimated on all but June and December call dates
1/ Beginning June 9, 1966, $\$ 1.1$ billion of balances accumulated for the payment of personal loans were deducted from time deposits and "all other"
2/ Beginning June 30, 1966, about $\$ 1$ billion of participation certificates previously included in agricultural and "all other" loans were reclassified as "other securities."
3/ Data revised beginning June, 1969, to include all bank premises subsidiaries and other significant majority-owned domestic subsidiaries; earlier data are for commercial banks only.

4/ Real estate loans decreased by $\$ 500$ million on December 31, 1969, and loans to nonbank financial institutions increased by $\$ 500$ million due to
change in method of reporting mortgage loans held under repurchase agreements.
5) Consumer credit data adjusted in July to exclude about $\$ 400 \mathrm{million}$ of consumer paper sold by finance companies to the banking system but classified as loans to nonbank financial institutions on bank records. Subsequent repayments completed in February 1972 are also included in loans to nonbank financial institutions.
$6 /$ Includes $\$ 800$ million System matched sale-purchase transactions outstanding on February 24
Beginning June 30 , 1971, Farmers Home Administration insured notes totaling pproximately $\$ 700$ million are included in other securities; previously they had been included in real estate loans.
Beginning June 1972, business loans were reduced by $\$ 400$ million, nonbank financial increased by $\$ 300$ million, and "other" loans increased by $\$ 100$ million as the result of loan reclassifications at one large bank.

*     - Ratios in parenthesis are those obtained by adding Euro-dollars to the deposit base.

1/ Total loans (adjusted to exclude loans to banks); U.S. Government securities maturing within one year estimated on basis of Treasury survey of ownership; and total deposits (adjusted to exclude cash items in process of collection).
2/ Beginning June 1969, total loans are reported gross of valuation reserves rather than net as previously reported. The higher loan level increased the ratio by about 1.3 percentage points for all commercial banks.

3/ Loan data revised to exclude only loans to domestic commercial banks. Previous data had also excluded loans to foreign commercial banks.
