^{1/} Adjusted to exclude domestic commercial interbank loans. p - Preliminary.

Beginning July 1969, bank credit data are revised to include all bank premises subsidiaries and other significant majority-owned domestic subsidiaries; earlier data for commercial banks only. Also total loans and investments are now reported gross of valuation reserves rather than net as previously reported. Individual loan items have always been reported gross.

Beginning June 30, 1971, Farmers Home Administration insured notes totaling approximately \$700 million are included in other securities; previously they had been included in real estate loans.

Includes \$800 million system matched sale-purchase transactions outstanding on September 27. Includes \$200 million system matched sele-purchage transactions outstanding on November 💨.

p - Preliminary r - Revised 1/ Data are comparable with previous months. Individual loan items are gross throughout and the effect of consolidation in June 1969 on any one loan item was nominal.

- 2/ Consumer credit data adjusted in July to exclude about \$500 million of consumer paper sold by finance companies to the banking system but classified as loans to nonbank financial institutions on bank records. Subsequent repayments completed in February 1972 are also included in loans to nonbank financial institutions.
- 4/ Beginning June 30, 1971, Farmers Home Administration insured notes totaling approximately \$700 million are included in other securities; previously, they had been included in real estate loans.
- 5/ Beginning June 1972, business loans were reduced by \$400 million, nonbank financial increased by \$300 million, and "other" loans increased by \$100 million as the result of loan reclassification at one large bank.
- 5/ Includes \$800 million system matched sale-purchase transactions outstanding on September 27.
- Includes \$300 million system matched sale-purchase transactions outstanding on November 29.
- / Includes \$700 million system matched sale-purchase transactions outstanding on April 25.

^{2/} Real estate loans decreased by \$500 million on December 31, 1969, and loans to nonbank financial institutions increased by \$500 million due to change in method of reporting mortgage loans held under repurchase agreements.

NOTE: Data exclude domestic interbank loans. Consumer and "other loans" were partly estimated for all dates. Other data are partly estimated on all but June and December call dates.

- Beginning June 9, 1966, \$1.1 billion of balances accumulated for the payment of personal loans were deducted from time deposits and "all Other" loans.
- 2/ Beginning June 30, 1966, about \$1 billion of participation certificates previously included in agricultural and "all other" loans were reclassified as "other securities."
- 3/ Data revised beginning June, 1969, to include all bank premises subsidiaries and other significant majority-owned domestic subsidiaries; earlier data are for commercial banks only.
- Real estate loans decreased by \$500 million on December 31, 1969, and loans to nonbank financial institutions increased by \$500 million due to change in method of reporting mortgage loans held under repurchase agreements.

- by \$100 million as the result of loan reclassifications at one large bank. Includes \$800 million system matched sale-purchase transactions outstanding on September 27.
- $\overline{10}/$ Includes \$300 million system matched sale-purchase transactions outstanding on Movember 29.
- 11/ Includes \$700 million System matched sale-purchase transactions outstanding on April 25.
