Notice

Publication of the weekly statistical release "Daily Average Borrowings from Federal Reserve Banks" (L.5.2), temporarily halted in July, is being resumed. Enclosed are copies of the release for periods ending June 4, 1975 through August 20, 1975.

Please note that banks borrowing under adjustment credit are grouped by total deposits, and that the count of seasonal borrowers reflects banks with any seasonal borrowings over the thirteen week period. A bank with both seasonal and adjustment borrowings in the thirteen week span is counted only as a seasonal borrower.
