^{1/} Frequency distribution reflects weeks of indebtedness for all city member banks without regard to period of borrowings. Banks included in count reflect structure as of most recent date.

NOTE: Most ratios are computed from underlying figures in thousands.

Details may not add to totals because of rounding. Amounts of less than \$500,000 denoted by 0.

(Less than \$50,000 in line 1 denoted by 0.0) Percentages of less than .1% are denoted by 0.0.

Data Production Section, Division of Data Processing

Digitized for FRASER 2/ As of November 9, 1972, the definition of reserve city and country banks was changed (see Federal Reserve Bulletin, July 1972, p. 626). The http://fraser.stlouisfed.org/ | Classifications employed here are the same as prior to the change in definition, so these series are continuous over time.
