## Monthly BUSINESS STATISTICS

Unless otherwise stated, statistics through 1954 and

 ${f T}$  HE STATISTICS here are a continuation of the data published in Business Statistics, the 1955 Statistical Supplement to the Survey of Current Business. That volume (price \$2.00) contains monthly data for the years 1951 through 1954 and monthly averages for earlier years back to 1929 insofar as available; it also provides a description of each series and references to sources of monthly figures prior to 1951. Series added or revised since publication of the 1955 Supplement are indicated by an asterisk (\*) and a dagger (†), respectively, the accompanying footnote indicating where historical data and a descriptive note may be found. In most instances, the terms "unadjusted" and "adjusted" used to designate index numbers and dollar values refer to adjustment of monthly figures for seasonal variation.

Statistics originating in Government agencies are not copyrighted and may be reprinted freely. Data from private sources are provided through the courtesy of the compilers, and are subject to their copyrights.
