## Monthly BUSINESS STATISTICS

[Annual averages (or totals) for 1957 are provided herein; see reference note on p. 3 regarding data for April 1958.]

 ${
m T_{HE~STATISTICS}}$  here are a continuation of the data published in the 1957 edition of Business Statistics, biennial Statistical Supplement to the Survey of Current Business. That volume (price \$2) contains monthly (or quarterly) data for the years 1953 through 1956 and monthly averages for all years back to 1929 insofar as available; it also provides a description of each series and references to sources of monthly figures prior to 1953. Series added or significantly revised since publication of the 1957 Business Statistics are indicated by an asterisk (\*) and a dagger (†), respectively; certain revisions for 1956 issued too late for inclusion in the aforementioned volume appear in the monthly Survey beginning with the July 1957 issue. Except as otherwise stated, the terms "unadjusted" and "adjusted" refer to adjustment for seasonal variation.
